# Group-Project1

---

**Description:** We will create an app to explore new music and artists. Users will be able to select a musician or genre of music from a drop down menu or will be able to type in an artist's name in on an input bar. Once the user clicks a submit, the YouTube API will populate a corresponding music video; additional information from Wikipedia will also render.

## **AfterParty (OmegaRemix) App**

**Team Name:** Var Default Number One

**Team Members:** Jessica La Torre, Jeff Swafford, John Bassili, and Frey Lingle

- APIs: YouTube and Wikipedia - Additional Libraries: Bootstrap or other CSS Libraries & Moment

## **Breakdown of Roles:**

---

Backend (JavaScript, JSON, AJAX)

- Jeff Swafford: API Calls
- Jessica La Torre - Event Listener

Frontend (HTML, CSS, Bootstrap):

- John Bassili: Format containers and display windows in main page area to show videos and artist description)
- Frey Lingle: Build nav bar and user input area

Unit 1

THE PROPERTY OF A LINE

1. All sides are equal

1. All sides are equal
